Combining simple, clean design with maximum quality and function, Dura Steel filing products are the right choice for the modern office. Featuring ample storage space, Dura Steel lateral files can hold most types of media. Notched, heavy-gauge drawer sides can accept legal, letter, and metric-size hanging folders.

DURA STEEL LATERAL FILES

Dura Steel Lateral Files

TWO DRAWER

AJC7

FEATURES

- Uprights, top and bottom reinforcements are welded into rigid "box frame." constructed of 20- and 22-gauge steel.
- Drawer fronts are constructed from 20-gauge steel with full-width flush inset pull and label holder
- Components have been tested to accept loads of 125 lbs. This exceeds ANSI/BIFMA X5.2-1989 standards for lateral files
- Locks are standard on all units. The lock is a high security, single bit type and can be changed on site
- All units contain a counterbalance weight to ensure maximum stability
- Drawer interlocks which prevent more than one draw at a time being open are included

Old Dominion Collaborative Desks

"b" OR "d" TOP

AKA3

PENINSULA

AMA9

DESCRIPTION

Collaborative Desks are designed to connect to a bridge and then to a single pedestal credenza. This creates a "U" shaped work environment. Collaborative Desks may also connect to a return with drawer pedestal to form an "L" work center. When selecting product to form a "U" or "L" shaped work center remember to select each piece from the seated users position. For example: a left pedestal desk with a bridge and a right pedestal credenza will form a "U" shaped work center. a bridge and then to a single pedestal credenza. This creates a "U" shaped work environment. Collaborative Desks may also connect to a return with drawer pedestal to form an "L" work center. When selecting product to form a "U" or "L" shaped work center remember to select each piece from the seated users position. For example: a left pedestal desk with a bridge and a right pedestal credenza will form a "U" shaped work center.

SIZE AVAILABILITY

The "b" configuration for use in situations when additional units attach on the left

The "d" configuration for use in situations when additional units attach on the right

Peninsula configuration is not handed and can be used either right or left

Available with fluted edge detail or for a slight additional charge an ogee edge detail

Choose from six wood finish colors

Choose from three different sizes:

60 D		30 W		30 H
66 D		30 W		30 H

CONFERENCE

With its emphasis on ease-of-use in short-term seating conditions, the Alt3 Conference Chair also approaches support and design from a unique position. Its back relies on the frame's curves and resulting "mesh pocket" to provide constant contact and lumbar support. With modern sensibilities, modern design cues, and a modern take on lumbar support, Alt3 is leading a revolution in seating.

Eddy's rugged construction and great versatility makes it suitable for use in high traffic areas such as dining areas, recreation rooms, training rooms, universities and colleges. Available in eight polypropylene colors on chrome or black frames, with optional seat and back upholstery pads. Eddy can be stacked in both four-legged and sled based versions – even with a writing tablet. Eddy's accessories and chair options allow them to be used in many different environments under varying conditions. Clever product design enables the user to modify the product as often as they like in their own environment. Eddy is simply in a class of its own.

FRAME CHOICES

Activities requiring high levels of concentration often carried out in a fixed seated posture for hours on end, often cause health problems ranging from muscular tension and headaches to the dreaded slipped disc. Solid chairs with special features which encourage dynamic sitting help solve this problem. The Tec stool features a backrest that follows the user, ensuring the correct seated posture, and can be locked in infinite positions. Due to the properties of polyurethane, it can be easily cleaned, making the stool ideally suited for labs and exam rooms. Features include seat height adjustment, height adjustable foot ring, mechanical backrest angle adjustment for the DPN SP 9118 series.

For lab classes, reference desks or related applications requiring high-range adjustability, the ZUMA lab stool - which includes an adjustable-height seat and footring - is a perfect choice. By contrast, the Zuma Task Stool has a reduced seat size and a shorter adjustment range that's ideal for many elementary and intermediate school kids, as well as smaller students in upper grades. The Zuma Task Stool is great for high schools - and for adults at all schools - where task seating is preferred.

TASK

Today's fast-paced office is the perfect place for the contemporary style and unmatched comfort of Breathe Seating. The sleek styling of the high-back task chair makes it a perfect addition to any organization. The Breathe Seating line features a beautifully sculpted polypropylene back structure wrapped with a double layer of nylon mesh fabric that offers the ultimate in support and breathability. The adjustable lumbar pad is built into the chair frame for added durability on Breathe Task Chairs. A contoured foam seat covered with the same soft and durable 2-ply athletic mesh improves ventilation and reduces fatigue. For even more comfort, users can adjust the seat height and back tension of the chairs with an easily accessible knob and lever beneath the seat.

Engage® task chair provides high-performance, ergonomic seating. The seat and back moves with you via a synchrotilt control for enhanced comfort. The soft seat also tilts forward to relieve pressure on thighs when in a work-intensive position. Whether you adjust seat depth, back height or arm height, Engage ergonomic task chairs pivot to fit your body and adapt to your tasks. Back flexes 20 degrees yet can be locked in any of three positions. Controls are also easy to access and grasp.

Transcription

Proof Read

New Braille Book

Overview

Our system uses Duxbury 11.2 software, and transcribed product is available as .dxb and .brf files. We are able to emboss small projects in-house. Larger projects will need to be embossed by a braille publishing facility.

Transcribers are certified as Literary Transcribers by the Library of Congress. We expect to have several transcribers certified in Formats 2011, Nemeth, and Proofreading by early 2015.

Several of our transcribers have found skilled employment in the braille industry after their release. Although technical advancements continue to be made in the braille industry, there is a need for highly skilled people to give the finishing touch to any braille project.

VCE Braille Transcription Contact
Industry Group Manager - Randy Smith

Fax 434-984-0454

Simplified Mixing

CorrectPac is always mixed one Pac to a bucket, bottle or tank of water—eliminating the math and guesswork associated with bulk materials, provides standardization of operations, and results in safer and more accurate use of chemicals. Simply fill containers to their proper level with water, open one Pac and pour.

Color-coded and Bilingual Instruction

Products, labels, bottles and MSDS are all color-coded. A blue formulation, such as BowlPac has a blue label and blue bilingual spray bottles with MSDS printed on blue paper. Bilingual instructions and procedure charts help ensure accurate, productive use. Color-coding makes it easy to train, control and document use. eliminating waste.

OVERVIEW

DOCUMENT SCANNING

VCE Document Conversion scans all types of documents, from Business Card size to Architectural / Engineering drawings, producing High Quality Images in the format that best meets the needs of each individual Customer.

DOCUMENT MANAGEMENT

Enterprise Content Management or ECM Shared Services is offered to provide cost affective Document Management for our Customers. ECM Shared Services can be implemented without the need to purchase any software, servers or build infrastructure, yet is a robust Enterprise Class system. Additionally, these services are configurable, to meet the needs of virtually any application. ECM Shared Services stores your files in their native format.

ARCHITECTURAL & ENGINEERING

We provide scanning of Architectural / Engineering drawings, utilizing 3 large format scanners capable of Black & White, Gray Scale & Color. Additionally, we offer Raster to Vector conversion of A & E drawings. This provides our Customers with the ability to bring the drawings into CAD Systems; this is supported by 3 Certified CAD Operators.

HIGH QUALITY IMAGES

Utilizing 10 High Speed Document Scanners and 2 Mid-range Document Scanners; all scans are done at a minimum of 300 dpi resolution. Gray Scale and Color scanning are also available.

CONVERSION OF MICROFILM

Conversion of Aperture Cards, Microfiche, 35mm Microfilm & 16 mm Microfilm to Digital Image is available, with our Microform Scanner.

FULL TEXT SEARCH

We are capable of Optical Character Recognition (OCR) for full text search and retrieval, either during Image Capture or with previously scanned digital images.

FILE TYPE CONVERSION

Services for conversion of files from multiple digital formats; TIFF to PDF, JPEG to PDF and many others.

MICROFILMING

Microfilming of paper based files is still utilized in many applications; we operate 8 high quality Planetary Microfilm cameras.

CD / DVD DUPLICATION

CD / DVD Duplication is provided utilizing 2 Automated Replicators for virtually any type media; video, voice, born digital files (MS Word, Excel, etc.) or scanned files for distribution.

DATA ENTRY

Indexing and Data Entry are also among the services provided.

Delivery

Overview

Why should you outsource? Bulk washing is the most cost efficient means of washing, usually for pennies per pound. Overall your spending is far less than owning and servicing your own equipment. Large commercial wash loads are far more energy efficient, better for our environment. Commercial washing is fast, turnarounds in as little as a couple of days. Special packing and packaging to par level specifications. Rag out & stain sort. OSHA compliant in infection control procedures. Sanitation methods safely remove pathogens, restoring linen to hygienic service.

Current customers include:

- Hospital & Nursing Facilities
- Universities and Schools

Job Skills=Opportunity

Supervised offenders operate all of our facilities, learning valuable job skills in a realworld work environment. Developing a work ethic is critical for offenders to succeed upon release. Virginia's recidivism rate is one of the lowest in the nation and our work programs help to make that happen.

License Plates are the iconic correctional industries product. Working with our sister agency the Virginia Department of Motor Vehicles, VCE makes more than 300 different License Plate designs. Additionally, VCE provides custom license plates for Volunteer Fire Departments and Rescue Squads as well as the Virginia Marine Resources Commission and Diplomatic Plates for the Office of Foreign Mission a division of the US State Department.

A souvenir copy of any Virginia license plate design may be ordered from the Virginia Department of Motor Vehicles using their web site www.dmv.virginia.gov. Ornamental souvenir plates are sold as single plates and cost \$10.00 each. You may personalize your souvenir plate for an additional fee of \$10.00. Remember, these are ornamental souvenirs and may not be displayed on your vehicle.

Using the 3 1/2" x 7" format, VCE can manufacture custom identification plates for your Volunteer Fire Department or Rescue Squad. License plates with a different look get noticed. Why not a special plate that keeps your group's name in view? It's a great way to enhance public awareness and build pride among your team members.

The VCE Optical Lab at the Fluvanna Correctional Center for Women is a full service provider of prescription eyeglass services. VCE Optical is the eyewear provider for VADOC, DJJ, and major Virginia not-for-profit organizations. The VCE Lab provides training as Dispensing Opticians under the Virginia Apprenticeship Council, and works closely with the VADOC Division of Education's Optical Technologies program.

Prescription Eyeglasses

Overview

The VCE Optical Lab at the Fluvanna Correctional Center for Women is a full service provider of prescription eyeglass services. VCE Optical is the eyewear provider for VADOC, DJJ, and major Virginia not-for-profit organizations. The VCE Lab provides training as Dispensing Opticians under the Virginia Apprenticeship Council, and works closely with the VADOC Division of Education's Optical Technologies program.

VCE Optical employs between five and ten offenders, and over seventy women have participated in the program since 2002. The Lab produces over 6,000 pair of Rx eyeglasses annually.

Our Lab uses modern equipment that is often found in optical super-stores, and many of our ex-offenders are employed in private industry.

THE ADVANTAGE IS ALL YOURS

Savings of time labor and inventory. Gain greater control over costs and increase the efficiency of your printing budget by printing just the materials you need. Reprinting quickly means you don't incur expensive storage charges or worry about materials becoming out-of-date. Make your job uniquely yours with customized variable data. With the capability to automate variable graphics as well as data, your project takes on a whole new look which amplifies visibility and readership. Choose from a wide variety of paper stocks and weights and finishing options for even more flexibility.

OVERVIEW

THE PROCESS IS SIMPLE

Step 1: Submit your printing job to DigitalWorks either in person, via our convenient FTP Server, by email, or through our website at: www.govce.net

Step 2: DigitalWorks processes your request and responds with a quote on your project.

Step 3: Once the quote is approved, VCE will supply you with your choice of an electronic PDF proof, or a Hard Copy proof for your approval.

Step 4: Once you have approved the proof, your job is processed by our state of the art equipment and the final product is shipped directly to the destination you have requested.

Step 5: Your completed job is stored on our system for retrieval in the event you need reprints at any time.

VCE's sign products run the gamut – from speed limit to street names, from no parking to neighborhood watch. If you don't see the sign you want, chances are we can custom manufacture whatever you need.

We also provide our customers with name tags, decals, nameplates and other interior signs.

VCE sign products are consistently of the highest caliber. All street signs fully conform to Federal Standards noted in the Manual on Uniform Traffic Control Devices. Our signs feature high-intensity grade reflective sheeting; the most visible and durable surface available. We also offer engineer grade finish. VCE's signs require little attention and will withstand years of exposure.

OVERVIEW

Screen Printed Garments

Screen printed items make perfect giveaways to promote your organization or event and serves as team building items to create loyalty within your organization. These items also make great fundraisers! Let VCE help promote your public awareness with bags, aprons, t-shirts, towels, jackets and more.

VCE offers screen printing for an economical alternative to embroidery on wearable items. While being a cost effective way to get your message out, screen printing can also provide a more detailed image than embroidery. VCE has the answer to give your team a unified look that will make them proud.

VCE makes the selection and design of your items as easy as possible. If you have artwork available, we can easily work any graphic file. If you just have an idea and need design services, VCE can walk you through the design experience.

We can help you make design decisions that give you the maximum 'wow factor' at the most cost effective price. Either way you create your product, you'll be proud of your new 'brand image'!

Embroidery

For over a decade VCE has been providing quality embroidered items with the client in mind. State of the art equipment allows us to provide our clients a variety of options. Combining the latest in digitizing techniques and personalized attention to detail, VCE will work with you to create customized items and can be tailored to your style. Our workforce is focused on delivering products on time and within budget.

VCE offers an extensive line of products ranging from shirts and caps to blankets, bags and more. VCE Embroidery is a great choice for cost effective designs with attention to every detail.

Our skilled offender workforce is continually educated and trained in the latest techniques and industry practices. Quality and excellence is our #1 focus in everything we produce. Whether you are outfitting your staff, clients or celebrating a special event, VCE is a ready to make it happen.
